NO ONE HURT AS CARS TURN OVER ON ROAD

There were two different accidents on Highway 84, in Coffee County, during the past week in which an automobile overturned but without serious injury to the driver in either wreck.

John M. Buchanan, 33, of Enterprise, was the driver of an automobile which wrecked 2.2 miles west of Elba Sunday about 3 a.m. when the steering gear broke with the result that the car overturned on the pavement and was demolished. Buchanan was not seriously hurt.

Winston Nixon, 16, of Route 2 Elba, a student at Opp High School, was returning home from school about 5 p.m. when a tire blew out on Highway 84 about four miles east of the Coffee - Covington county line. The car ran off the road, overturned and was demolished but the driver was not seriously hurt.

J. D. Wambles of the Alabama Highway Patrol, investigated both accidents.

Land Bank Offers Farm Scholarship

The Federal Land Bank of New Orleans is awarding a \$1,200 scholarship each year to an Alabama farm boy who enters the school of agriculture or the department of vocational agricultural education at Auburn University, announced James S. Pridden, Jr., manager of the Federal Land Bank Association of Enterprise, Ala.

To be eligible for a scholarship the applicant must be a member of the 4-H or FFA. He must rate in the upper 50 percent of his senior class and show leadership ability, Mr. Pridden says.

The \$1,200 scholarship for the winner will be given at the rate of \$300 per year for four years.

Mr. Pridden advises that interested boys should contact either the principal of the school, the county agent, vocational teacher, or the manager of the Federal Land Bank Association and request that an application blank be secured.

Oscar Vaughan, Jr., vice president of the Elba Exchange Bank, was elected president of the Elba Chamber of Commerce at the annual meeting Tuesday, this week, succeeding Dr. E. M. Warr.

Ross Smith, Chevrolet dealer in Elba, was elected Chamber vice president while Duke Tatum, Jr., was re-elected secretary - treasurer and Miss Marguerite Rhodes was re-elected recording secretary.

Dr. Warr called attention of the members to the fact that annual dues of \$15.00 are now due and payable and requested that every member mail a check to Miss Rhodes.

Mayor H. E. Taylor announced that almost \$60,000 is now in the special Hospital Fund from the 1 per cent sales tax which, by law, can be used for no other purpose and requested that Elba will finally get a hospital even if it is necessary to wait until sufficient funds have accumulated for the city to build it without federal or state aid.

Dr. Warr concluded his final meeting as president by reviewing activities of the Chamber during the past year with the comment that when the year's accomplishments are seen in review it can be understood that the Chamber of Commerce is valuable to the city's progress even though it may not be apparent week to week.

CROPS LATE IN COUNTY DUE TO COOL WEATHER

Although the weather has been cooler than normal in Coffee county in April and May, no great damage to crops has resulted, according to Thomas C. Casaday, assistant county farm agent.

The growth of peanuts has been stunted although it is too soon to say how extensive the condition will be. Cotton has also been affected.

Crops are two or three weeks late planting due to cold weather but all these setbacks can be overcome if weather is favorable hereafter, Mr. Casaday said. Although there have been some heavy rainfalls, including a 2 1/4 inch downpour May 7, precipitation has not been too heavy.

LOSS OF PURPOSE

Life magazine has announced a forthcoming series of articles about the loss of national purpose in America. The subject is a good one but we cannot forecast whether or not the material will be good.

Whether it is or not, we can be reminded of those words from Ecclesiastes: "Where there is no vision, the people perish," or those words from Carlyle: "Hero worship makes heroes."

Many clubs in Elba are preparing their programs for next year and we would suggest that they include a session to discuss an answer to the question: "What's happened to the American dream?"

Such a discussion would include such questions as: How could a country with a population equal to present-day Los Angeles produce such men as George Washington, Benjamin Franklin, Thomas Jefferson and James Madison?

Prepared by
American Veterinary Association
Farmers have received a new warning about the hog cholera situation this spring.

Cholera seems to be on the march again. New and severe outbreaks occurred in many states over wide areas last year. And now, with the spring season for cholera practically here, we have real cause for concern, unless swine raisers take steps to have their herds protected against the disease.

The farmer's greatest danger lies in a false sense of security with regard to cholera. For upwards of fifteen years, most farmers kept their herds vaccinated. This built resistance in great areas and outbreaks fell off sharply. Now, many owners seem to have been lulled into taking chances, letting pigs go unvaccinated. The result was the severe wave of outbreaks which struck last season. And many more of these disastrous outbreaks are expected this spring, as cholera hits its stride again.

What to do? The important thing is to have every pig vaccinated BEFORE cholera strikes. There is no cure. The only protection is vaccination in advance. Several types of vaccines now give solid protection against cholera. Which should be used is best left up to the veterinarian. There are several reasons for this. First, all pigs need a cholera vaccine. Second, it is to be sure they are in proper condition. Third, local conditions and the condition of the pigs enters into determining which kind of vaccine is best.

Parents:

Can you NOT afford to send your child to college?

Today, one-third of all boys and girls of college age are going to college with many of their parents earning less than \$100 a week! So the answer is—you can afford it if you save.

Now is the time to start!

EARNING EXPECTANCY \$258,000!

That's what the average college graduate earns in his life, according to the Bureau of Labor Standards. It compares with \$155,000.00 for the high school graduate.

The demand for college-trained people is sky - rocketing!

Weigh any sacrifices you may have to make against the life-time advantages to your son or daughter!

Chevy hums through Chicago traffic to the tune of 21 miles to the gallon!

Working for Bumper and Auto of Illinois, Inc., ten 1960 Chevrolet pickups battle Chicago traffic day after day. Each truck averages about 2,000 miles a month in this wearing stop-and-start delivery service. Mr. Harry Haller, General Manager of S & H Truck Leasing, who leases the trucks to the bumper firm, reports: "We provide full maintenance on the trucks—gas, oil and everything else—so it pays us to know just where we stand on costs. And our records show that the '60 Chevies are giving us as much as 21 miles per gallon... with an average of better than 17 miles per gallon. Mister, these are our kind of trucks!"

Truck owners have good things to say about all Chevy engines. And when they're not talking about Chevrolet performance and economy, they're telling you how great that new Torsion-Spring Ride is. How it soaks up road shock and vibration. Protects fragile loads. Lets you run at faster, safe speeds to get more work done in a day. Drive a torsion-spring Chevy soon. We'll rest our case on that one ride.

4-H NEWS Round-up

Congratulations to the Mt. Pleasant Junior Club officers.

These boys won the officers trip to Lake Geneva for having done the best job of presiding at each club meeting throughout the year. The boys are: Harry Arnette, president; Lomax Hutto, vice president; Larry Adams, secretary; Grady Jones, song leader; Jerry Mims, devotional leader; and John Mynard, game leader.

Congratulations also to the officers of the Zion Chapel Senior Club. These boys have been awarded an all expense paid trip to Panama City for one day. Joe Frank Austin, president; Donald Ammons, vice president; Marion Fuller, secretary; Frankie Wilkes, song leader; Jimmy Owens, devotional leader; and Ricky Benton, game leader.

Mrs. C. E. Pencock is the local leader for the Mt. Pleasant Junior boys and John C. Windham is the local leader of the Zion Chapel boys. My hat is off to the boys and local leaders for having done a top job.

Seeing the Elba Chamber of Commerce and other businessmen go into action in raising \$300 for the Fat Calf Show was really encouraging. Dr. Milton Warr and Mr. Oscar Vaughan, Elba Exchange Bank got the ball rolling, and they were assisted by other Elba men including Mr. Jim Whitman.

The boys and girls who showed calves at Elba, appreciate the help given by the businessmen of Elba. I could tell they were happy when I saw the expressions on their faces when they received the cash. Folks who donated were Elba Lions

Club, Elba Exchange Bank, NASCO Supply Company, Piggy Wiggly (Benson Wholesale Gro. Co.), Dorsey Trailers, Redmon - Windham Tractor Co., W. H. Taylor, V. J. Elmore, and Emergency Aid Insurance Co.

Tri-State Fat Stock Show

Coffee county's 50 steers entered in the Tri-State's District Show in Dothan averaged 30.01 per pound. We are reasonably well pleased with this price. Choice cattle are down two and three cents per pound over what they were last year. We appreciate the help the people in Dothan gave us. And speaking of good help, we are indebted to B. J. Wilkes of the Enterprise Livestock Company for lining up several buyers for Coffee County calves. I know that boys and girls in Coffee county join me in thanking him.

Showmanship

Mrs. Wakefield and Mrs. Hutchinson were particularly proud of Karin Gibson of H. 2, Enterprise, for winning the senior showmanship contest at Dothan. She was awarded one of the most beautiful trophies I have ever seen. She certainly earned the trophy, because showing a big 1000 pound steer is about the hardest work a

person can get into. In the Junior Contest at Dothan, Eric Wilson of New Hope placed fourth. This was Eric's first year to show calves and to place fourth was mighty good. Carrol Wyatt's shorthorn was named dual-champion. Short-horn at Dothan. He had worked long and hard on his calf and I was glad to see him placed in the top spot.

Speaking Contest

Friday morning, May 27, at the Elba Courthouse, we are planning to have the annual 4-H speaking contest. The subject of the contest is Farmer Cooperatives. Each year now for five years we have had a group of boys and girls participating in this special contest. In addition to getting good training in speaking, the boys and girls learn a lot about how farmer cooperatives work.

Several nights ago I helped judge the Houston County contest. I was impressed with the way those boys and girls delivered their speeches. I hope ours will be as good or even better.

Sidressing

We have over 100 boys in Coffee county with corn and cotton demonstrations this year. One of the things that keeps us from getting high yields from corn and cotton is the lack of nitrogen. This is especially true when heavy rains come soon after planting. Nitrogen will leach from the soil and be lost. Unless plenty of nitrogen is used as a dressing, corn and cotton will be yellow. When this happens, yields will automatically be lower. Often times two or three dollars worth of extra nitrogen per acre will make a big difference in the yields.

Boys, let's use enough nitrogen to keep corn and cotton green until the ear or boll is mature. You will make more money!

FOUR STRINGS

Only four strings! But these four strings offer endless possibilities of tone and harmony. They open to man new horizons of beauty and happiness.

And yet, improperly played, these four strings can bring forth unbelievable discord!

There are four strings in life — with similar possibilities. Mind . . . Character . . . Courage . . . Faith!

The truths that fill our minds, the ideals that mold our character, the purposes to which our courage is given, the realities in which we believe; these can fill our lives with rich beauty and happiness or drab ugliness and sorrow.

For centuries the Church has been the maestro of these strings of life — helping men to bring from their own souls the harmony and beauty God has put there.

You can find music in everyday living through participation in the work of the Church.

"LIVING IS AN ART"

By Aldus Huxley, born 1894

In the former years the average person's main concern was to earn enough for the necessities of life while saving for his later unproductive years. Good health was often sacrificed to these efforts.

Now your chief problem is keep your body healthy enough to enjoy the extra years medical research has added to your life. Helping you to live better is your physician who can prescribe needed medication, a good pharmacy where you can obtain all the necessary medicines and health-aids. We welcome the opportunity to help.

Four county election contests and three state races held the center of interest in the runoff primary next week in Coffee county when voters will be presented a ballot only about one fourth as long as that they marked in the First Primary.

The county contests are as follows:

For Tax Assessor, between Thomas E. Bowden and Fred L. Donaldson.

For Tax Collector, between Laura S. Barker and James L. Sawyer.

For County Commissioner, District 1, between Eugene Brown, the incumbent, and Rex A. Lowery.

For County Commissioner, District 2, between R. D. Dyess and Claude Tindell, the incumbent.

The state balloting contests upon a hotly-contested campaign between C. C. "Jack" Owen, incumbent, and Ed Popper for president of the Alabama Public Service Commission, Popper has the endorsement of Former Gov. James E. Folsom.

Little attention has been attracted by the race for ten places as delegates to the Democratic National Convention in Los Angeles but 20 candidates for Presidential Electors are battling hard between a slate of ten candidates who have pledged themselves to vote for the Democratic nominee, whoever he may be, and ten unpledged to any slate.

Electoral candidates are listed alphabetically so persons wishing to vote for either group will need either to memorize the names or take to the polls a list of the group they wish to support.
